SRT Truck Hood Stripe Installation

All Dual Hood Stripe Styles keep the same Width Gap up the center

If you chose a fade hood style then you simply apply the stripe for the proper fit around the air intake and centered correct for your specific design style chosen.

SRT Truck Hood Trimming

At the cowl of the decal close to your windshield you will notice the decal over-laps. You can trim off this extra material and wrap under the back side of the hood to give a nice wrapped edge look.

SRT Hood Space Measurements

Depending on the year make of your specific truck the center gap space varies slightly for best look.

If you chose a hood style with a logo in the center. The gap spacing still holds the same on all design style variations available. see the above trim and layout measurements found to give you the best results from your install.
